

## Chuck and Nancy

**Chuck and Nancy Lippens**

Say the names “Chuck and Nancy” at Damar and nearly everyone knows who you’re talking about.

They are not only two of Damar’s most dedicated volunteers but also the parents of Andy, who at 37 years old, is one of Damar’s longest-served clients.

Chuck successfully manages to keep 80 Damar bicycles running smoothly all summer long as the unofficial bike mechanic of Damar’s campus.

Nancy, a retired school nurse, works with some of Damar’s youngest clients, taking them on camping trips and other fun community outings. She also supports Damar’s clinical team and Riley Hospital physicians by taking monthly height, weight and blood pressure measurements of each client on Damar’s campus.

“There are times when you realize that you have a true friend in someone and wish that everyone understood you the way your friends do,” said Damar President & CEO Greg Johnson. “For Damar, Chuck and Nancy have become those friends.”
