

The Guiding Stewards

The Damar Board of Directors

Carrying forth the vision of a family in search of only the best for their child is a challenge very few people are willing to take.

“We have never sought board members for well-known names or faces to place upon our letterhead,” said Damar President & CEO Greg Johnson. “Even after 28 years, I continue to be amazed at the never-ending compassion, stewardship and drive our board members hold in ensuring only the best for each child served.”

In a show of never-ending concern for those Damar serves, the Board of Directors invested in the creation of the *Damar Best* initiative in 2003, which seeks to identify, publish and disseminate Damar’s best practices in client care.

As one board member so aptly said, “Why should a child not receive the best care possible simply because Damar doesn’t have a bed available?”

Pictured here, representing the long lineage of Damar board members over the past 40 years, are members Patrick O’Connor, Julia Crowe and Rich Harcourt.
